## Professional Summary

Entry-level Full-Stack Developer with hands-on experience in React.js, Next.js, Node.js, and TypeScript. Successfully Built and deployed 3 production-grade SaaS applications featuring real-time AI integration, payment integration, and secure auth. Passionate about building user-friendly apps using modern web technologies

## Technical Skills

**Programming Languages:** TypeScript, JavaScript (ES6+), Java

**Frontend:** React.js, Next.js, Tailwind CSS, Zustand

**Backend:** Node.js, Express.js, REST APIs, JWT

**Databases:** Supabase (PostgreSQL), MongoDB, Firebase Firestore, Appwrite

**Tools & Version Control:** Git, GitHub, Vercel, Render, Sentry

**Core Skills:** API Integration (Vapi AI, Gemini AI), Cross-Team Collaboration, Code Quality Assurance

## Projects

### Converso – AI Voice Companion                                    *May 2025 – July 2025*

[ **GitHub** ] | [ **Live** ]

*Tech: Next.js 15, React 19, TypeScript, Tailwind CSS, Supabase, Clerk, Vapi AI*

- Engineered a full-stack AI-powered voice assistant delivering consistent responses under 250ms latency
- Integrated Vapi AI for seamless voice-to-text processing with live transcription achieving 98.5% accuracy
- Implemented Clerk authentication with subscription billing and role-based access
- Deployed on Vercel with real-time monitoring via Sentry, maintaining 99.5% uptime across all services

### Freelance-Flow – Client Management SaaS Platform                 *Jan 2025 – April 2025*

[ **GitHub** ] | [ **Live** ]

*Tech: Next.js 15, TypeScript, Appwrite, Stripe, Tailwind CSS, React Hook Form, Recharts*

- Developed a modular SaaS platform to manage clients, projects, invoices and time tracking workflows
- Configured Stripe Checkout and webhooks for payment processing reducing manual tasks by 80%
- Visualized business performance through a live analytics dashboard using Recharts and typed APIs
- Architected responsive design system with Typescript type safety, form validation using React Hook Form

### Prep AI – Interview Prep Platform                                *Oct 2024 – Dec 2024*

[ **GitHub** ]

*Tech: React 18, Node.js, Firebase, Gemini AI, Tailwind CSS, JWT, Render*

- Generated AI-based interview questions for 10+ roles using Gemini API
- Designed a feedback system based on user performance data
- Setup Firebase Auth + Firestore for real-time session tracking and analytics
- Launched on Vercel and Render with consistent 99% uptime

## Education

### Viswam Degree College                                           *June 2020 – Sept 2023*
*Bachelor of Science in Computer Science, Mathematics, and Physics*

## Trainings & Certifications

- Attained Web Development Internship Certification. [ View Certificate ]
